Octopus Cut & Paste Craft – Teacher Directions

1. Print

Print the octopus head, legs, and ocean background for each student. Use color or black & white.

2. Cut

Have students cut out the octopus legs. (You can pre-cut for younger students.)

3. Flip & Glue

Flip the head over and glue the legs to the back side so they fan out.

4. Assemble

Flip the full octopus right side up and glue it onto the ocean background.

5. Optional

Let students color the octopus and background (if using black and white version). Add seaweed, bubbles, or more ocean animals!
