How Cranberries Grow

Read the passage.

Cranberries grow on low vines in sandy soil. Small flowers bloom first. Then red berries grow. In fall, some farmers flood the fields to gather the ripe berries. The berries float to the top. Farmers collect them and take them away. Cranberries can be made into sauce, juice, and other foods.

Answer the questions.

1. Where do cranberries grow?
   - ○ on low vines
   - ○ on tall trees
   - ○ under the sea

2. Why are some fields flooded?
   - ○ to gather berries
   - ○ to grow flowers
   - ○ to wash boots

3. Cranberries are the color _____

Draw it!

Draw cranberry vines with round berries.

Turkey Feathers

Read the passage.

A turkey is a bird, and all birds have feathers. Feathers help keep a turkey warm and dry. Wing feathers help wild turkeys fly for short trips. Tail feathers can spread into a large fan. A male turkey may show this fan to other turkeys. Feathers also cover and protect the turkey's body.

Answer the questions.

1. What is a turkey?
   - ○ a bird
   - ○ a fish
   - ○ a bug

2. What can feathers do?
   - ○ keep it warm
   - ○ make it bark
   - ○ help it dig

3. A turkey can spread its tail like a _____

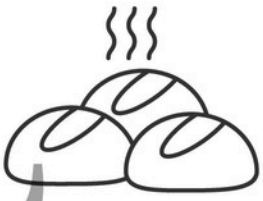

Draw it!

Draw a turkey with a large feather fan.

Name: _____ Date: _____

How Does Corn Grow?

Read the passage.

A corn plant begins as a seed in warm soil. Roots grow down, and a green shoot grows up. The plant gets tall and grows long leaves. A tassel forms at the top. Ears of corn grow on the stalk. Each ear has many kernels. Sunlight, water, and healthy soil help the corn grow.

Answer the questions.

1. Where does corn begin?
   - ○ in the soil
   - ○ in a nest
   - ○ in a pond
2. What grows on the stalk?
   - ○ ears of corn
   - ○ red berries
   - ○ pinecones
3. Corn needs sunlight, water, and healthy _____

Draw it!

Draw one tall corn plant with an ear of corn.
