Ruby went to William Frantz Elementary School. Some people did not want her to go to the school, and they were very angry. On her first day, she had to walk past a big crowd of people yelling at her. She was very brave. Federal marshals, special officers sent by the government, walked with her to keep her safe.

In the classroom, Ruby was the only student because some parents took their children out of the school. Her teacher, Mrs. Henry, was kind and taught Ruby every day. Over time, more children came back to school, and Ruby made friends.

Ruby Bridges helped change history. She showed courage and helped make schools fair for everyone. Today, she works to help students and teach them about kindness and bravery. She even wrote a book about her experiences!

BILLIE JEAN KING

Read the biographical passage about Billie Jean King and answer the questions.

Billie Jean King is a hero both on and off the tennis court. She was born in California and loved sports from a very young age. Billie Jean wasn't just any athlete; she became one of the greatest tennis players of all time!

Billie Jean won a lot of tennis matches, including 39 Grand Slam titles. That's a huge deal because Grand Slam tournaments are some of the most important competitions in tennis. But what makes Billie Jean even more special is how she fought for women to be treated fairly in sports and everywhere else.

A long time ago, women tennis players didn't earn as much money as men, even when they worked just as hard. Billie Jean thought this was wrong, so she stood up and said something about it. She played in a famous tennis match called the "Battle of the Sexes" against a man named Bobby Riggs. Many people watched this match, and Billie Jean won! This victory was about more than just a tennis game; it showed the world that women are strong and deserve equal respect and pay.

Billie Jean didn't stop there. She helped start a special tennis tour for women, making sure female athletes could earn a living from playing sports. She also worked to make it easier for girls and boys to play sports in school, helping pass a law called Title IX. This law says that girls and boys should have the same chances to play sports and do other activities at school.

Billie Jean King teaches us all a valuable lesson: it's important to stand up for what you believe in and to treat everyone equally, no matter if they're a boy or a girl. She showed that with hard work and courage, you can change the world for the better.

CHARLOTTE BRONTË

Read the biographical passage about Charlotte Brontë and answer the questions.

Charlotte Brontë lived a long time ago in England, in a big family with lots of brothers and sisters. She loved making up stories and playing with words, even when she was just a little girl like you. Charlotte lived in a big, old house that seemed like it was straight out of a fairy tale, filled with secrets and adventures waiting to be discovered.

Charlotte wrote a famous book called "Jane Eyre". It's a story about a girl who, just like Charlotte, had a big imagination and dreamed of doing great things. Charlotte wrote her book to show that girls are strong, smart, and can be heroes in their stories. She wanted everyone to know that it's okay to be different and to stand up for what you believe in.

Even though Charlotte lived in a time when it was hard for women to be writers, she didn't let that stop her. She used a pretend name, Currer Bell, so people would read her book without worrying if it was written by a girl or a boy. Charlotte showed everyone that what you write is more important than whether you are a boy or a girl.
Charlotte's stories are still read by children and grown-ups all over the world. She taught us that with imagination and courage, you can create your own adventures and maybe even write your own book one day!

MARIE ANTOINETTE

Read the biographical passage about Marie Antoinette and answer the questions.

Marie Antoinette was a queen of France, born on November 2, 1755, in Austria. She moved to France to marry a French prince, who would become king, making her a queen. Marie Antoinette lived in a huge, fancy palace called Versailles and wore the most beautiful dresses. But while she had a life of luxury, many people in France were very poor and didn't have enough food.

There's a famous story that says when Marie Antoinette heard that people had no bread to eat, she said, "Let them eat cake!" But historians think she probably never said this. The story was likely made up to make people not like her. It's important to remember that sometimes stories get changed and may not be true.

During a time called the French Revolution, when people wanted to change how the country was run, Marie Antoinette and her family faced big problems. Sadly, this story doesn't have a happy ending for her. The queen was put to death in 1793 because people were angry about how the country was being run.
